PRO-TEK PENETRANT-1

CLEANING, PENETRATING & LUBRICATING RUST PREVENTIVE

DESCRIPTION

Pro-Tek Aqua Penetrant-1 is an oil based moisture displacing and penetrating rust preventive that effectively lubricates as it protects. When applied, this product will leave a uniform thin, oily protective film. Pro-Tek Penetrant-1 protects against rust and corrosion on tools and equipment and penetrates to free stuck, corroded or varnished parts. Pro-Tek Penetrant-1 works quickly to penetrate and displace moisture from water affected parts and equipment.

PROPERTIES

Appearance:	Clear straw liquid
Film Type:	N/A
Dry Time @20°C:	N/A
Odor:	Mild Industrial
Film Thickness:	N/A
Density lbs/gal:	8.5
Indoor Protection:	N/A
Outdoor Protection:	N/A
Flash Point:	N/A
Water Displacing:	N/A
Paintable/Weldable:	N/A

FEATURES & BENEFITS

- Frees rusted and encrusted tools, nuts and bolts due to corrosion or varnish
- Does not contain chlorinated solvents
- Effectively penetrates cracks and crevices
- Indoor protection for all ferrous and non-ferrous parts
- Resists acidic atmospheric conditions
- Efficiently dewateres and restores rusted parts and components

HEALTH AND SAFETY

See the most recent SDS which is available directly from ValCOOL, your local representative or authorized distributor. ValCOOL uses only raw materials not listed as carcinogenic by IRAC.

APPLICATION

Apply product as is by brush, dip or spray to all surfaces needing protection. Will quickly penetrate and protect. Drying time is dependent on temperature, relative humidity and air circulation. Remove product by wiping off or use of alkaline cleaner
